>>No, that's not correct.

Half-Baked knows that, but with his bowling-mentality, he thinks he has a better chance of throwing a strike if he puts a little spin on his balls, while twisting Jim's.

>>He was charged with (and plead guilty to)
>>obstructing an IRS agent (26 USC 7212(a)) and misuse of a Social Security
>>number (42 USC 408). The "attack" he admitted to executing consisted of
>>applying a stinky chemical to the doormat of an IRS office. (see
>><<http://jya.com/jimbell-dock4.htm>> for more.)

Was that FELONY 'Making a bad smell'? I farted in an IRS office once (on purpose). Am I a Jim Bell co-conspirator?
Are my armpits considered a felony or a misdemeanor?

The government misuses my Social Security Number to steal my money. Where do I press charges? Can I place airline employees under citizen's arrest when they demand it?

>>It's
>>interesting to note that the prosecutor and the defense concurred in
>>recommending to the judge that Jim receive a sentence at the low end of the
>>permissible range, while the probation department (which acts as an
>>"attitude police") urged a sentence of 27 months, at or near the upper end
>>of the applicable guidelines.

>>
>>Jim's analysis of AP and its relationship to our legal/political/social

GOVERNMENT, GATES & GOMEZ

Bianca sat silently, trying to compose herself before facing the children and bringing them up to date on the quickly changing situation surrounding an educational process which had been, up to now, mostly an exciting exercise in technological mystery and intrigue. Despite her inability to cover up the full depth of her current despair, the point became moot when she entered the room to find the girls all suppressing giggles, and the lone boy in the group sitting with his arms

"Overdrawn?" Methinks Peter and Robert are on the outside,
looking in.

Forwarded from the London Telegraph:

>Daily Telegraph Connected Supplement 16th December 1997
>
>A European Commission report warns that the United States has developed
an
>extensive spying network on European Citizens and we should all be
worried,
>reports Simon Davies.

telephone, email
>and telex communication around the world will be officially
acknowledged
>for the first time in a European Commission report to be delivered this
>week.

Of course, anyone who suggests that they would use this information to
compile a complete dossier on everyone in society is a paranoid lunatic,
just as those who suggested the above *before* it became an open secret
were paranoid lunatics.

>Briefly consider what sorts of harms might occur if such a computer
existed.
>If the computer were controlled by the government, then individuals
might

I think I should walk into a Luby's Cafeteria and start blowing people away at random, for no good reason.

- ~ If you agree, vote by dialing 1-800-EAT-SHIT
- ~ If you disagree, vote by dialing 1-800-EAT-SHIT

I think I should go down to a local school and start randomly slaughtering the children.

- ~ If you agree, vote by dialing 1-800-EAT-SHIT
- ~ If you disagree, vote by dialing 1-800-EAT-SHIT

I think I should monitor the electronic communications of every person on the face of the earth, in order to protect them from themselves.

- ~ If you agree, vote by dialing 1-800-EAT-SHIT
- ~ If you disagree, vote by dialing 1-800-EAT-SHIT

I think I should attempt being elected the leader of the most influential country in the free world, by kissing the asses of the money and power mongers.

- ~ If you agree, vote by dialing 1-800-EAT-SHIT
- ~ If you disagree, vote by dialing 1-800-EAT-SHIT

NOTE: If you don't have a phone, you become a guest on a TV talk show where I am appearing, and cheer or boo me, according to your wishes.

Remember: Your opinion matters...NOT!
